

## WHITE SWAN® 2-PLY INTERFOLD NAPKIN

The newest addition to Kruger Products classic line of White Swan® napkins provides excellent value by using a much stronger, more absorbent and softer napkin for the cost-conscious operator. We've combined the right amount of quality and performance so that you know every fibre is working.

- Great alternative to Junior Dispenser Napkins (JDN) – JDN's are 1-ply and less absorbent so more napkins are needed to get the job done
- EcoLogo<sup>M</sup> certified, made with 100% recycled fibre and over 88% post-consumer content

**White Swan® – dependability and softness – without compromise.**

**PERFORMANCE REALLY DOES MATTER.**

### FEATURES

- Interfold design enables one at a time dispensing and fits into Onliwon® counter/table top napkin dispensers
- 2-ply allows for more absorbency and strength
- Ideal quality offering for cost-conscious operator

### BENEFITS

- Reduced product consumption and easy to adapt for most foodservice locations, without requiring new dispensers
- Appropriate for Quick Service and Family Style restaurant environments
- Great for spills, stays together when wet
- Less napkins required to do the job, reducing overall amount of product consumed
- Better value for money
