

# RESTROOMS NEVER LOOKED SO GOOD.

## STAINLESS STEEL SEMI-RECESSED ROLL TOWEL DISPENSERS

The new Stainless Steel Semi-Recessed roll towel dispenser wall combination units offer a premium looking, all-in-one solution to your proprietary Electronic and Mechanical Roll Towel dispenser and receptacle requirements. The sleek and modern look of these stainless steel dispensing systems will complement the overall image of your facilities, while the standard sizing allows these units to be used for both new and retro-fit installs.

## DISPENSER FEATURES

- 22-gauge stainless steel cover
- Cover supported by arms to guide lid slowly when opening, to avoid cover banging and potential damage
- Dual side window opening allows for easy paper visibility
- Internal low battery indicator light visible when servicing unit
- Electronic and Mechanical models are designed for use with all Ultimate Washroom™ proprietary roll towels
- Touchless hygienic operation with controlled dispensing

## WALL UNIT FEATURES

- Produced with North American steel and assembled in Canada, with one year warranty on any manufacturers defects
- 22-gauge stainless steel box, trim and receptacle with welded construction and locking removable waste bin
- Sturdy, one piece unit makes for easy installation and provides longevity to unit life
- Semi-recessed receptacle design comes with standard size bag holder apparatus
- Manufactured for ADA compliance: dispenser unit is semi-recessed approximately 4.0" from the wall and the recommended installation height ensures required floor clearance

## LEED CERTIFICATION

- These dispenser / wall units contribute credits in the following categories: Recycled Content, Regional Materials (within a 500 mile/804 kilometre radius of the production facility) and Low Emitting Materials
- LEED provides a practical rating tool for green building design, construction and maintenance
- Developed by U.S. Green Building Council, LEED certification recognizes environmental sustainability for new and existing buildings

## COST-IN-USE BENEFITS

### THIS DISPENSING SYSTEM:

- Results in fewer run-outs, especially when paired with White Swan® 1,200' roll towels, maximizing maintenance staff time, allowing them to focus on other high traffic areas
- Removable receptacle makes trash collecting quick and easy
- Sleek and clean design supports a positive end-user experience

Note: Requires wall opening of 54.5" (138.9 cm) H x 12.5" (40.6 cm) W x 4.0" (10.2 cm) D
